PROFESSIONAL SUMMARY

Data-driven Supply Chain & Operations graduate (MSc, TIAS School for Business and Society, 2025) with 3+ years of hands-on warehouse and operations experience and a Lean Six Sigma Green Belt. Builds supply chain analytics end to end — SQL, Power BI, Tableau, Python and SAP SD (order-to-cash) case work — and pairs it with floor-level operations know-how, including a 30% operational efficiency improvement across 50+ locations at RAWEP. Combines structured analysis (PEST, SWOT, Porter's Five Forces, feasibility modelling) with practical logistics discipline. Seeking supply chain / operations analyst roles across all sectors — retail, FMCG, e-commerce, tech, pharma, manufacturing and logistics — in the Netherlands and worldwide.

EDUCATION

TIAS School for Business and Society <i>MSc Business Administration — Supply Chain & Operations Management (GPA 7.5/10)</i>	Tilburg / Utrecht, Netherlands <i>Graduated Dec 2025</i>
Van Hall Larenstein University of Applied Sciences <i>Exchange Year — Agribusiness</i>	Velp, Netherlands <i>Graduated Jul 2023</i>
College of Agriculture and Allied Sciences, Baramati (MPKV) <i>B.Sc. Agriculture (Hons) — agronomy, horticulture, agricultural economics, biotechnology</i>	Maharashtra, India <i>Graduated 2022</i>

MSc THESIS

Barriers to AI Adoption in Smallholder Farming	TIAS, 2025
Qualitative study using the Technology Acceptance Model across 12 semi-structured interviews with smallholder farmers; translated adoption barriers into practical recommendations for agri-tech providers.	

LIVE PROJECTS

Supply Chain KPI Dashboard <i>Power BI, Python, HTML</i> github.com/vennelasirusala15-source/Power-BI-Supply-Chain-Dashboard
Built an interactive control-tower dashboard tracking core supply chain KPIs — OTIF, inventory turns, fill rate — on warehouse order data, published as a browsable HTML report.
SQL Order Fulfilment Analysis <i>SQL</i> github.com/vennelasirusala15-source/-SQL-Order-Fulfilment-Analysis-
Designed a five-table relational database of 1,500 orders and queried fulfilment lead times, late-delivery drivers and customer-level service performance.
Customer Segmentation & RFM Dashboard <i>Power BI</i> github.com/vennelasirusala15-source/marketing-rfm-powerbidashboard
Applied recency-frequency-monetary analysis to ~3,350 transactions, segmenting 500 customers into six behavioral cohorts to inform retention and win-back strategy.
SAP SD Order-to-Cash Case Study <i>SAP SD</i> github.com/vennelasirusala15-source/e-SAP-Order-to-Cash-Case-Study
Documented the SAP order-to-cash cycle end to end — sales order, delivery, billing, payment — as a structured process case study.
Demand Forecasting (Holt-Winters) <i>Python, time series</i>
Forecasted weekly demand for 8 SKUs over 3 years of data with seasonality decomposition, achieving 9.8% average MAPE.
Cashew Export Supply Chain Dashboard <i>Tableau</i>
Visualised 260 India–Germany shipments end to end — routes, transit times, costs and delays.

EXPERIENCE

ALSO Group (via Brave Ones) <i>Operational Logistics Associate</i>	Nieuwegein, Netherlands <i>Nov 2025 – Apr 2026</i>
- Coordinated inbound and outbound warehouse operations in high-volume IT distribution, managing inventory flow, order fulfilment and delivery tracking. - Maintained high inventory accuracy through disciplined cycle counting, picking and stock reconciliation.	
Temper Netherlands <i>Freelance Operations — Logistics, Hospitality, Kitchen</i>	Netherlands <i>Apr 2023 – Present</i>
Delivered flexible operations shifts across multiple companies and warehouses in the Randstad, adapting quickly to varied processes, teams and systems.	
RAWEP <i>Warehouse & Operations Coordination</i>	India <i>Apr 2022 – Jul 2022</i>
Analysed warehouse coordination across 50+ locations, identified bottlenecks in delivery logistics and inventory planning, and implemented systematic improvements delivering a 30% operational efficiency gain.	
Aashman Foundation <i>Recruiter Intern</i>	India <i>Oct 2021 – Nov 2022</i>
Supported end-to-end volunteer recruitment: sourcing, screening and onboarding coordination for a non-profit organisation.	
Just Agriculture (The Magazine) <i>Business Development Intern</i>	India <i>Oct 2021 – Jan 2022</i>
Supported outreach and partnership development for an agricultural publication	

ACADEMIC PROJECTS

Achal Cashews — export market strategy | Baker Hilvers — feasibility study | Indian FMCG fruit juice sector analysis | Va

- Client and coursework projects at VHL and TIAS spanning market-entry analysis, commercial feasibility, sector structure analysis and operational assessment.

KEY SKILLS

Analytics & Tools: SQL, Power BI, Tableau, Python, Advanced Excel, SAP SD (case study), SPSS

Supply Chain & Operations: Demand forecasting, order fulfilment, inventory accuracy, KPI reporting (OTIF, fill rate, inventory turns), warehouse coordination, process improvement

Methods & Frameworks: Lean Six Sigma (DMAIC), PEST, SWOT, Porter’s Five Forces, feasibility and value chain analysis, Technology Acceptance Model

Soft Skills: Cross-functional collaboration, stakeholder communication, attention to detail, ownership, adaptability

CERTIFICATIONS

Lean Six Sigma Green Belt (Accredited) — AIGPE via Udemy	Jul 2024
Executive Diploma in Strategic Management — MTF Institute via Udemy	May 2024
Guest Speaker — “Unlocking Global Agri-Education Pathways”, Krushishastra Agrotech	2025
